Appreciation towards **Basis architectural bureau (<http://ab-basis.com>)** for providing the following description

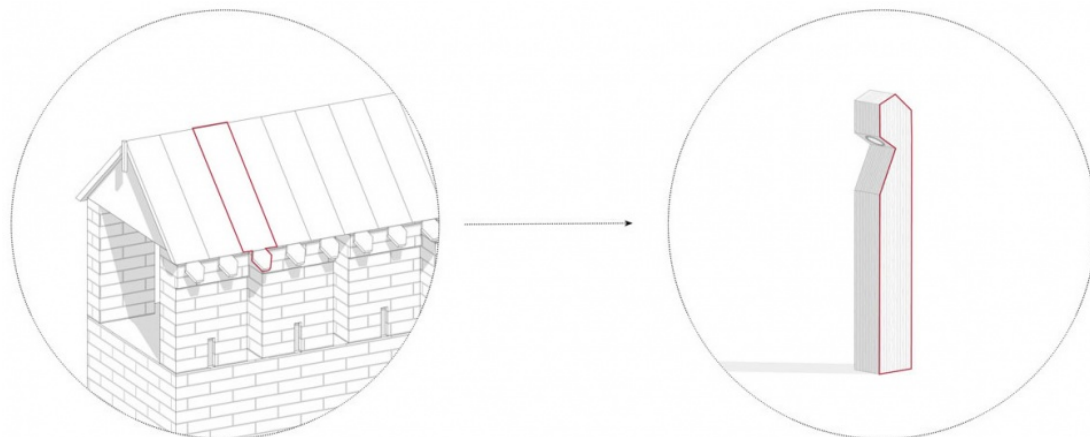

该广场位于科洛姆纳（Kolomna，一个距莫斯科三小时车程的俄罗斯小镇）克里姆林宫宫墙外，其设计重点在于如何保护场地特殊的历史特征。因而，设计师为广场的铺装选择了类似克里姆林宫墙砖的熟料砖，并仿照克里姆林宫塔楼元素设计了木质的景观照明灯。

It was important for architects to preserve the identity of the historical place when working with the small square near the walls of the Kremlin in Kolomna (a small Russian town located three hours of Moscow). That is why a clinker brick imitating the brick from the Kremlin wall is used in the paving. The shape of wooden lamps for the landscape lighting is taken from the elements of the Kremlin towers.

Basis.

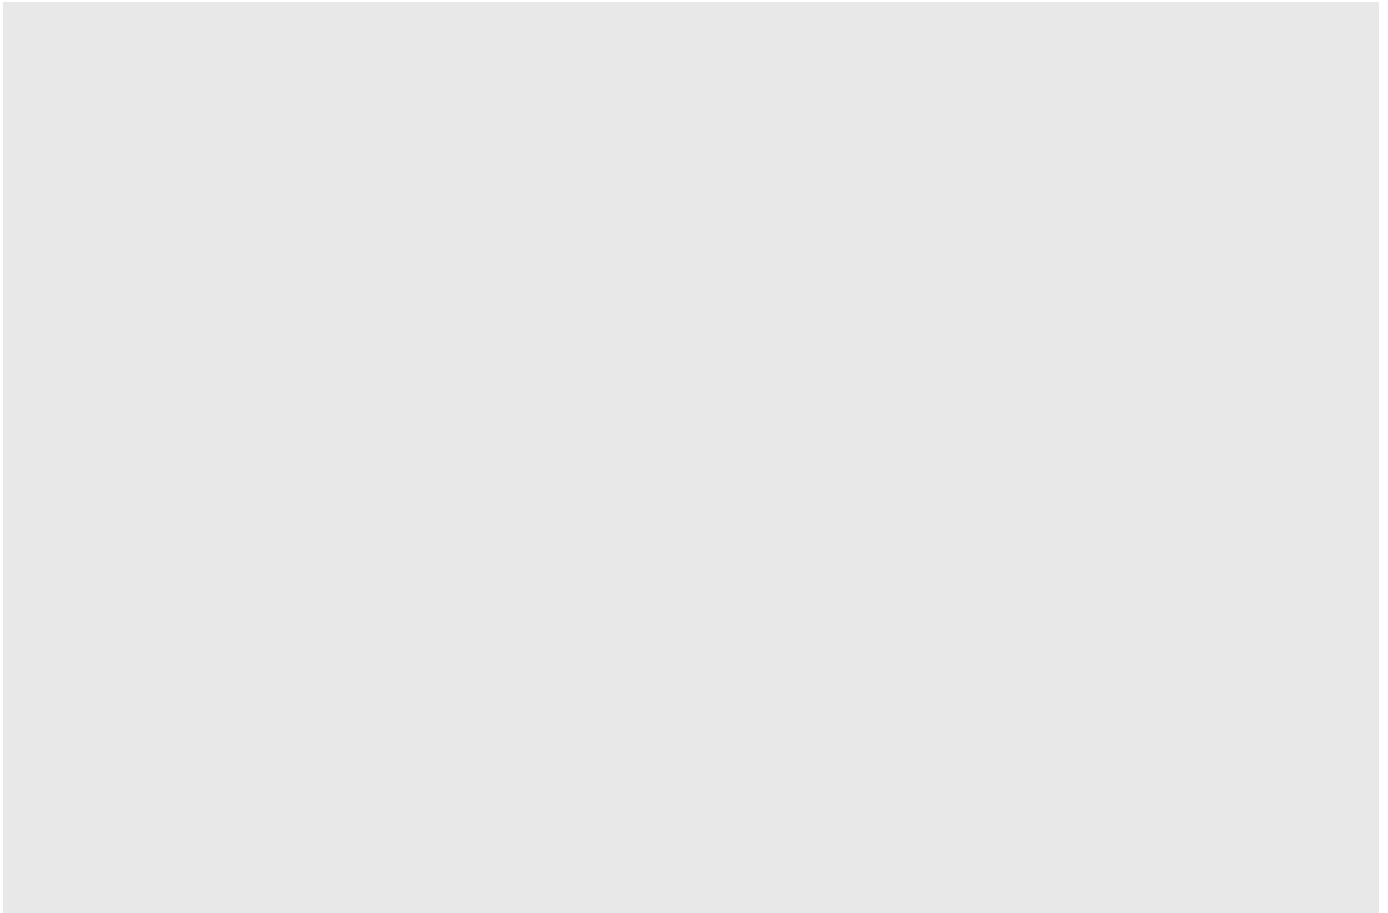

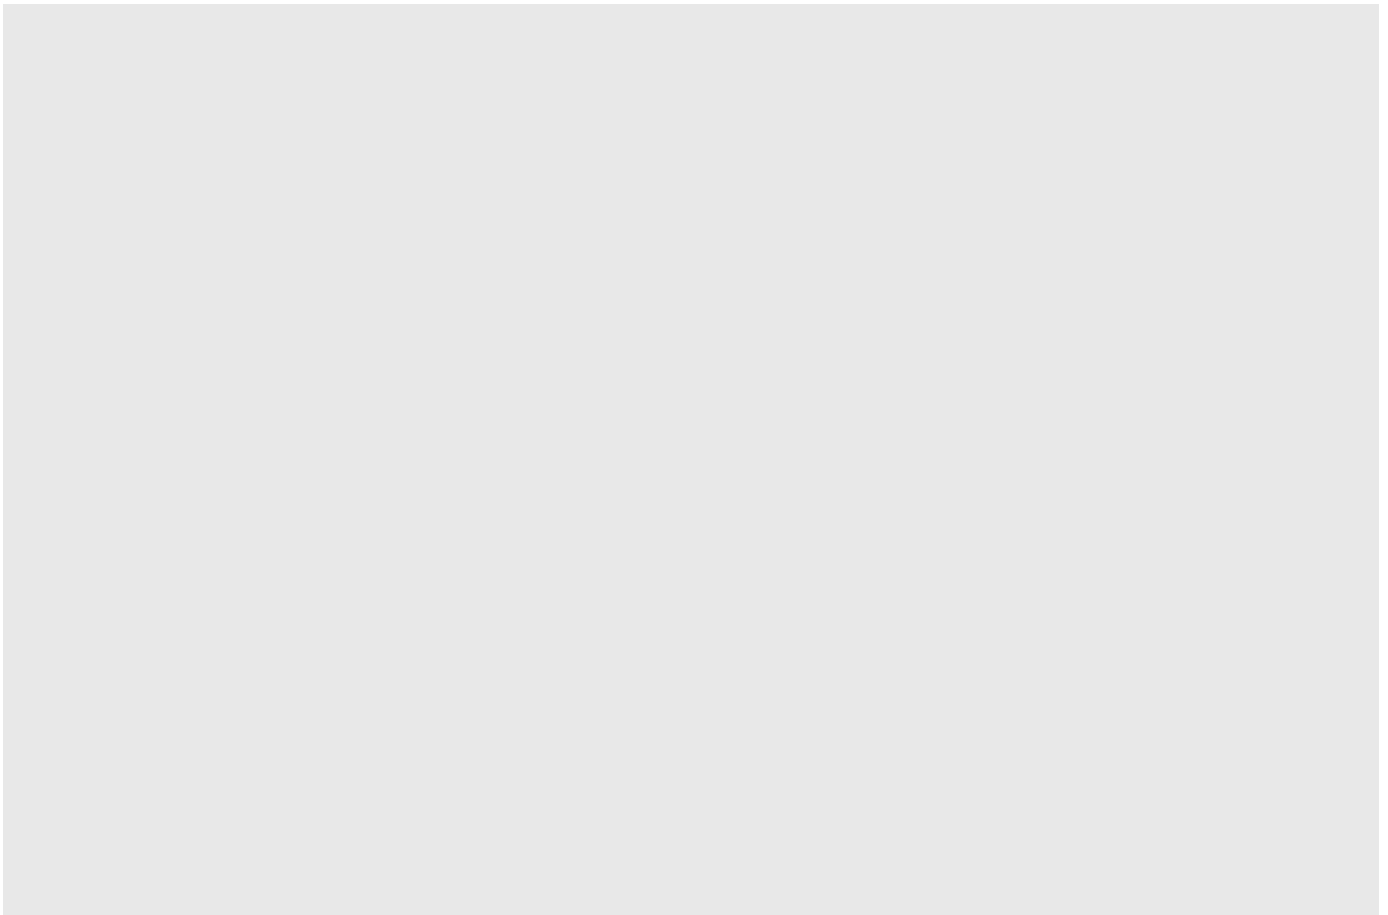

新的景观设施为场地注入了独特的魅力：砖块铺装以不规则的边界过渡到鲜绿的草坪中，参天的大树投下大片阴影，为树下的人们带来舒适的阴凉。

Landscaping is a unique feature for the new space: the brick paving gradually transitions into the fresh lawn, and the preserved mature trees provide comfortable shade.

莫斯科Basis architecture bureau的建筑师Ivan Okhapkin回忆道：“作为建筑师，我们希望能为场地创造出符合乡村小镇特色的家庭氛围，因此，我们在广场中采用了人性化的尺度设计，并采用了带有温暖质感的材料。”

Ivan Okhapkin, Basis architectural bureau (Moscow): We, as architects, wanted to convey a «home-like» atmosphere characteristic of a small county town, so we kept the human scale in the proportions and used «warm» natural materials.

每当夜幕降临，广场中的内置聚光灯将转换空间氛围。在克里姆林宫宫墙的映衬下，灯光散布的广场将成为科洛姆纳小镇旅游线上又一个充满吸引力的景点。

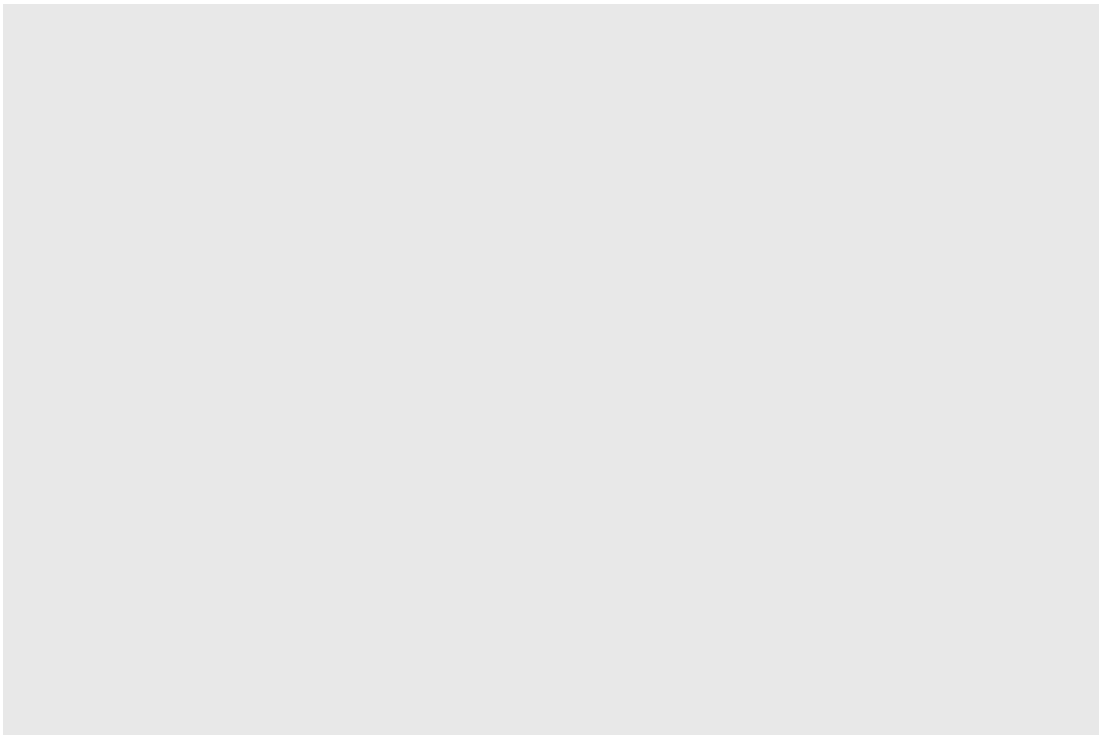

In the evening, the space is transformed by the built-in spot lighting. The square with a scattering of lights against the background of the Kremlin wall becomes a new «wanna see» attraction in the tourist route of Kolomna.
